

IMPORTANT NOTICE TO HUNTERTOWN WATER CUSTOMERS

This notice is to inform Huntertown water customers of our water main flushing schedule. During the next few weeks, the town employees will be flushing hydrants in the Huntertown water utility service area.

The town employees will begin flushing water mains starting October 5, 2020 between the hours of 7:30 a.m. and 5:00 p.m. We expect to be completed by November 13, 2020.

During the period of flushing, you may experience episodes of discolored water and reduced water pressure. If this occurs, run your water faucet until the water is clear, remove the aerator and rinse it out. We recommend that you first run water into your washer and examine the water to be sure it is clear before putting in your clothes.

NOTE: A sign will be posted when the town employees are in your area hydrant flushing.

The following is a tentative schedule to provide some guidance on when your area can expect flushing related inconveniences:
